Each Additional Member Add:	+4,420	+369	+185	+170	+85	Each Additional Member Add:	+6,290	+525	+263	+242	+121

Note:

If all income is received on the same schedule

Example: alimony = \$100–month & pension = \$300–month

DO NOT use conversion factors

If family reports income sources from more than one schedule

Example: alimony = \$100–month & pension = \$300–week

Income MUST be converted to yearly.

Yearly Income = Monthly x 12

Yearly Income = Twice Per Month x 24

Yearly Income = Every Two Weeks x 26

Yearly Income = Week x 52

DO NOT round the values resulting from each conversion
